

Summer Themed Top Trumps

Create your own summer themed top trumps cards! Use the summer flowers template on the website or edit it for your own summer theme for e.g. British beaches, mini beasts, trees, summer fruits. Research your facts using the internet!

Summery Bakes

Make a super yummy raspberry heart loaf cake or crumble for your family to eat, Use one of the recipes attached and change the fruit or add another fruit for extra flavour. When you cut your fruit remember to use the.....

claw method and bridge hold to ensure you work safely and don't cut your fingers.

Seeds and Plants

Find out how flowering plants reproduce! <https://www.bbc.co.uk/bitesize/topics/zgssgk7/articles/zqbcxfr> Can you plant some flowering seeds and keep a diary to record their progress? Learn more about seed dispersal here <https://www.bbc.co.uk/bitesize/topics/zxfrwmn/articles/z28dpbk>

Can you create a presentation about seed dispersal using what you have learnt? You could use PowerPoint, publisher to make a poster or leaflet, or even create a podcast or recording! You could collect and sort some too!

Bees!

Learn about the important role of bees here <https://www.bbc.co.uk/teach/would-we-starve-without-bees/zkf292p>

Use the Bee Art Power point on the school website to explore how artists depict bees in their work. Use the images below to help you create a bee artwork! Remember it's all about looking carefully at what you are drawing and including all the details!

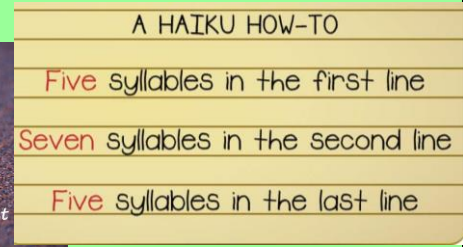

Summer Haiku Poem

Create a Summer Haiku Poem. Haikus poetry is traditional in Japan and is often about nature. Use the Haiku rules to create your own.

See the examples attached to help you.

Investigate and Classify

Can you investigate the plants in your local area? Choose 2 places to do your survey, an open area for e.g. a field hedgerow and a woodland. Use the plant guide and pages attached to find out how many of each plant you can see in this area. Can you create a graph using the graph paper to show your findings and compare?

Global Plant Challenge

Where in the world do different plants come from? Find out about different types of plants on this website <https://www.dkfindout.com/uk/animals-and-nature/plants/> Use the Plants Around the World presentation on the school website to find out where different plants come from. Now use what you have learnt to create a plant map of the world. Use the map and plants images attached and add in facts you remember!

Stay Safe in the Sun

Take this quiz, how much do you know about staying safe in the sun? <https://www.bbc.co.uk/newsround/48609398>

Read on down the webpage to find out about other ways to stay safe in the sun. Can you create a podcast using Audacity, video clip, Powerpoint presentation or leaflet or poster on Publisher to tell other people about staying safe in the sun and why we need to? You could even come up with a catch phrase like these!

For examples and pages to use, see the pages below!

Summer Paintings

Look at some famous art on the theme of Summer using the presentation on the school website. Have a go at creating your own summer inspired art!

Months Names

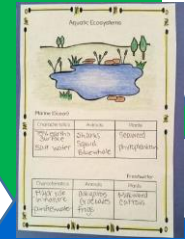

Use your research skills to find out about the origins of the month names of June, July and August. What meaning do they have?

Eco Systems

Find out about eco systems <https://www.bbc.co.uk/bitesize/topics/zdgdcat/articles/z2p9fcw>.

Design or make your own ecosystem! Here are some ideas

Yoga Challenge

Have a go at some Rainbow yoga with Adrienne -

<https://www.youtube.com/watch?v=dF...>
06-Qablo

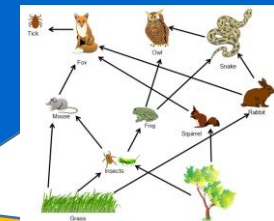

Flower Pressing

Have a go at pressing some flowers. Collect flowers from the garden or on a walk. Place the flowers, spaced out, between two pieces of paper, and place them within the pages of the book. Use more books, or perhaps a brick, to weigh down the book once it is closed. After two to three weeks, the flowers will be completely dry. Remove very carefully using your fingers, as a dry flower is very delicate.

Food Webs

Find out about food webs here https://www.ducksters.com/science/ecosystems/food_chain_and_web.php
Can you research and create your own food web using drawing or ICT? .

Summer Adventure story

Write your own summer adventure story! Use the tips from this clip to help you plan it.

<https://www.bbc.co.uk/bitesize/topics/zx339j6/articles/zgthrxw>

or you could read some first, like this one!

Summer Recipes

Have a go at these fun 'no cook' summer recipes! You could make anything from fruity ice lolly pens or frozen banana lollies to no bake cheesecake or chicken pesto wraps!

<https://www.bbcgoodfood.com/recipes/collection/no-cook-kids-recipes>

Quick crumble mix

Preparation and cooking time

Prep:20 mins **Cook:**50 mins **Easy** **Serves 4-6**

Make this speedy fruit crumble for dinner tonight.

Ingredients

- 450g fruit, chopped into 1cm chunks (we used 400g Bramley apples and 50g fresh blackberries)
- 75g [granulated sugar](#)
- 50g [butter](#), cold and cubed
- 100g [plain flour](#)
- 50g [demerara sugar](#)

Method

• **STEP 1**

Heat the oven to 180C/160C fan/gas 4. Mix together the fruit and granulated sugar (you will need less sugar for canned fruit) so it's evenly coated. Tip into a pie dish where it fits snugly.

• **STEP 2**

Rub the butter into the flour to make a light breadcrumb texture. Do not overwork it or the crumble will become heavy. Add in the demerara sugar until combined and spread over the fruit until completely covered.

• **STEP 3**

Bake for 35-50 mins until golden brown and bubbling, and the fruit is tender. Leave to cool for 5 mins before serving.

Raspberry heart loaf cake

- **Ingredients**

- 275g (9oz) butter spread, plus extra for greasing
- 275g (9oz) caster sugar
- 4 large eggs
- 350g (12 1/2oz) self-raising flour
- ½ tsp baking powder
- 175g (6oz) raspberries
- 1 x 10g tube bright red gel food colour
- 75g (3oz) mascarpone
- 1 tbsp icing sugar, sifted, plus extra to dust
- 125g (4 1/2oz) Greek yogurt

1. Preheat the oven to gas 4, 180°C, fan 160°C. Grease and line a 20cm (8in) square cake tin and a 900g (1 3/4lb) loaf tin (at least 6cm deep) with nonstick baking paper, giving the loaf tin a 1cm collar above the sides.
2. In a bowl, cream the spread and sugar together with an electric hand whisk until light and fluffy. Add the eggs, one by one, beating between each addition. Sift over the flour and baking powder and fold in with a spoon until smooth
3. Crush 25g (1oz) raspberries with a fork. Put in a bowl with 400g (13oz) cake mix. Cover the remaining mix in cling film; set aside. Stir 3/4 of the food colour through the berry cake mix until bright pink. Spoon into the square tin and bake for 18-20 mins. Cool in the tin for 10 mins, then remove from the tin to cool completely. Stamp out 9 hearts with a 5cm (2in) cutter.
4. Spoon 5 tbsp cake mix into the loaf tin, spreading to cover the base. Place the hearts in the tin, upright and touching each other. Spoon the remaining mix around and over the hearts, ensuring it falls between the hearts and baking paper at both ends of the tin. Leave a gap of at least 1/2cm at the top of the tin.
5. Bake for 40-45 mins until cooked through and risen. Cool for 10 mins, then remove from the tin to cool completely.
6. Put the mascarpone and icing sugar in a bowl. Stir in the yogurt, then spread over the top of the cake. Top with the remaining berries, dust with icing sugar and slice. As part of a healthy diet, enjoy this cake for a special occasion or treat.

Summer Haikus

Calm as a river

Tranquillity in my heart

Blue summer skies

**Peaceful, sunny day
Munching on watermelon
Soft breeze hits my toes**

Full strawberry moon,
ushers in hot days of June,
High tides fill the dune,

Hot sun rising soon,
Fishing in the afternoon,
Whistling my own tune!

Beautiful sunrise
On a warm summer morning.
I wait for day's start.

Rosy coloured sky
On a cool summer evening.
Glorious sunset.

Plant Identification Key

Plant Classification and Identification Data Sheet

When you are at your first area, list as many types of plants you can see using the table provided below. Count the number of each type of plant and record in the table. Repeat this at your second area.

Tip: Use the plant identification key to help you identify the flowers (any plants you don't know, draw them or take a picture to identify them in the classroom).

What are you looking at in this investigation? Circle the correct answer.

Type of animal

Type of flower

Type of tree

What are you measuring? Circle the correct answer.

Number of flowers

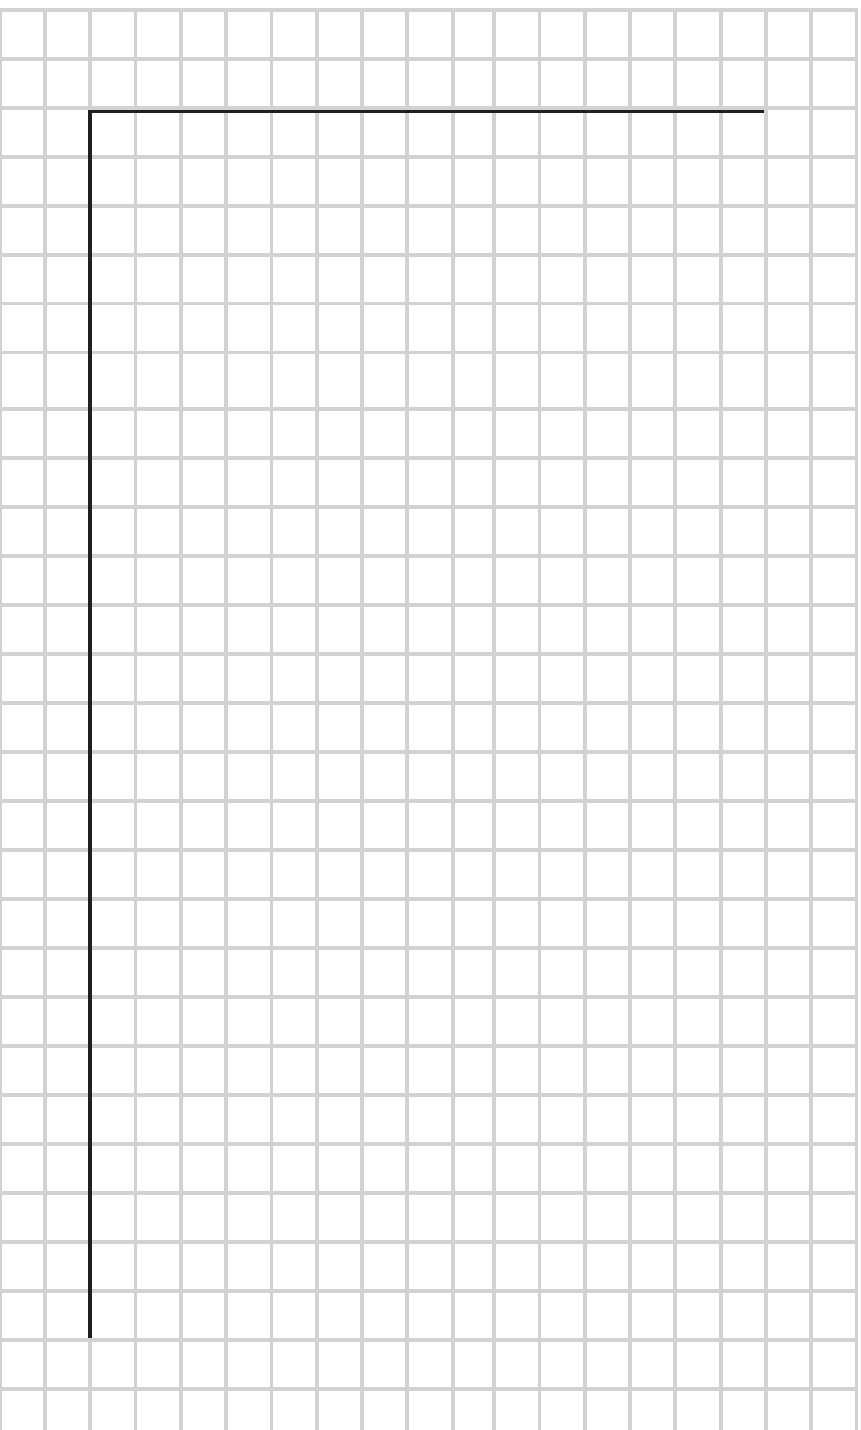

Number of weeds

Number of people

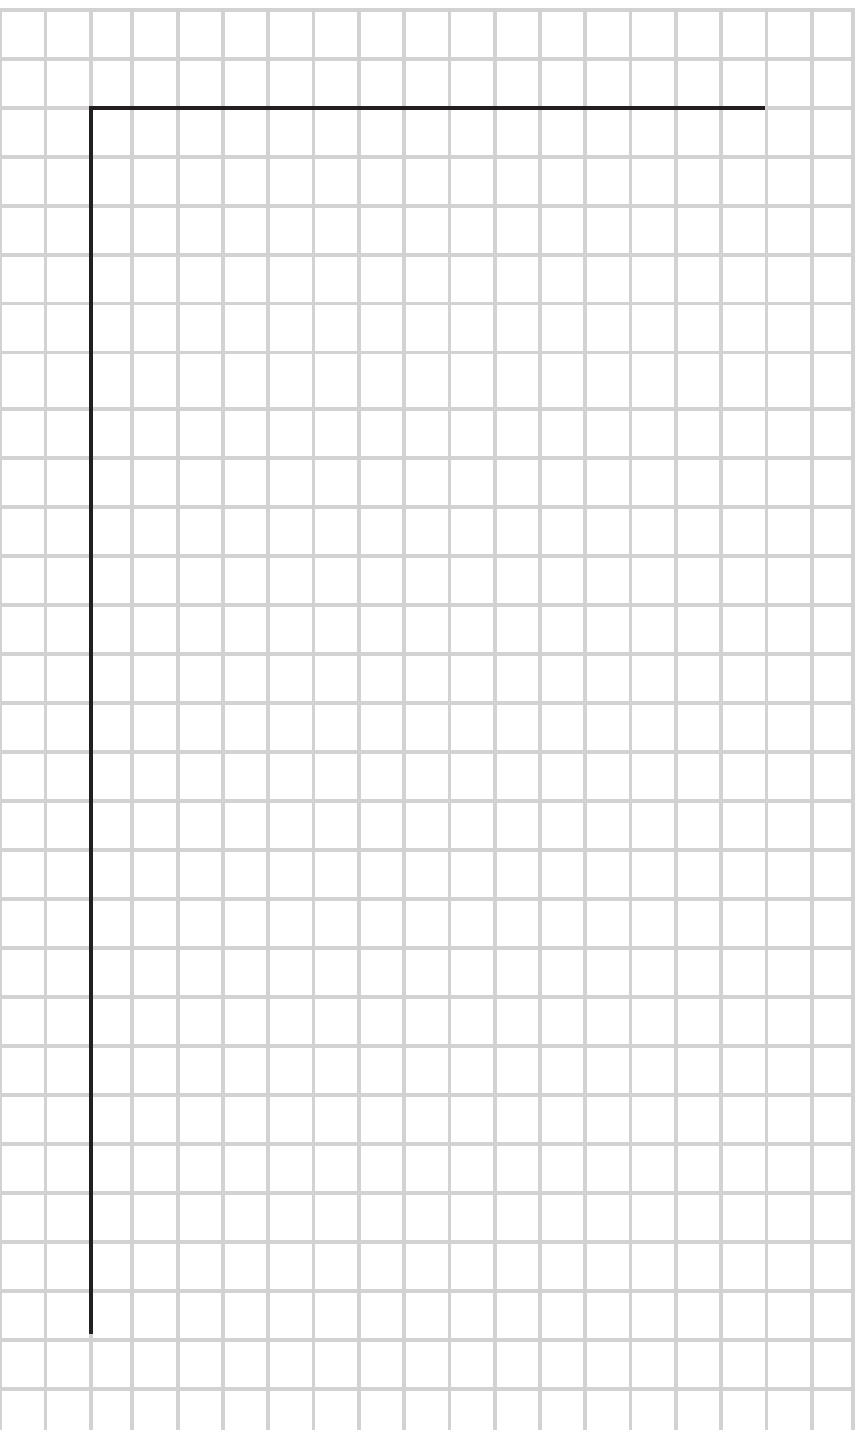

Plant Type	Number of Plants Found	
	Area 1	Area 2
Total Number		

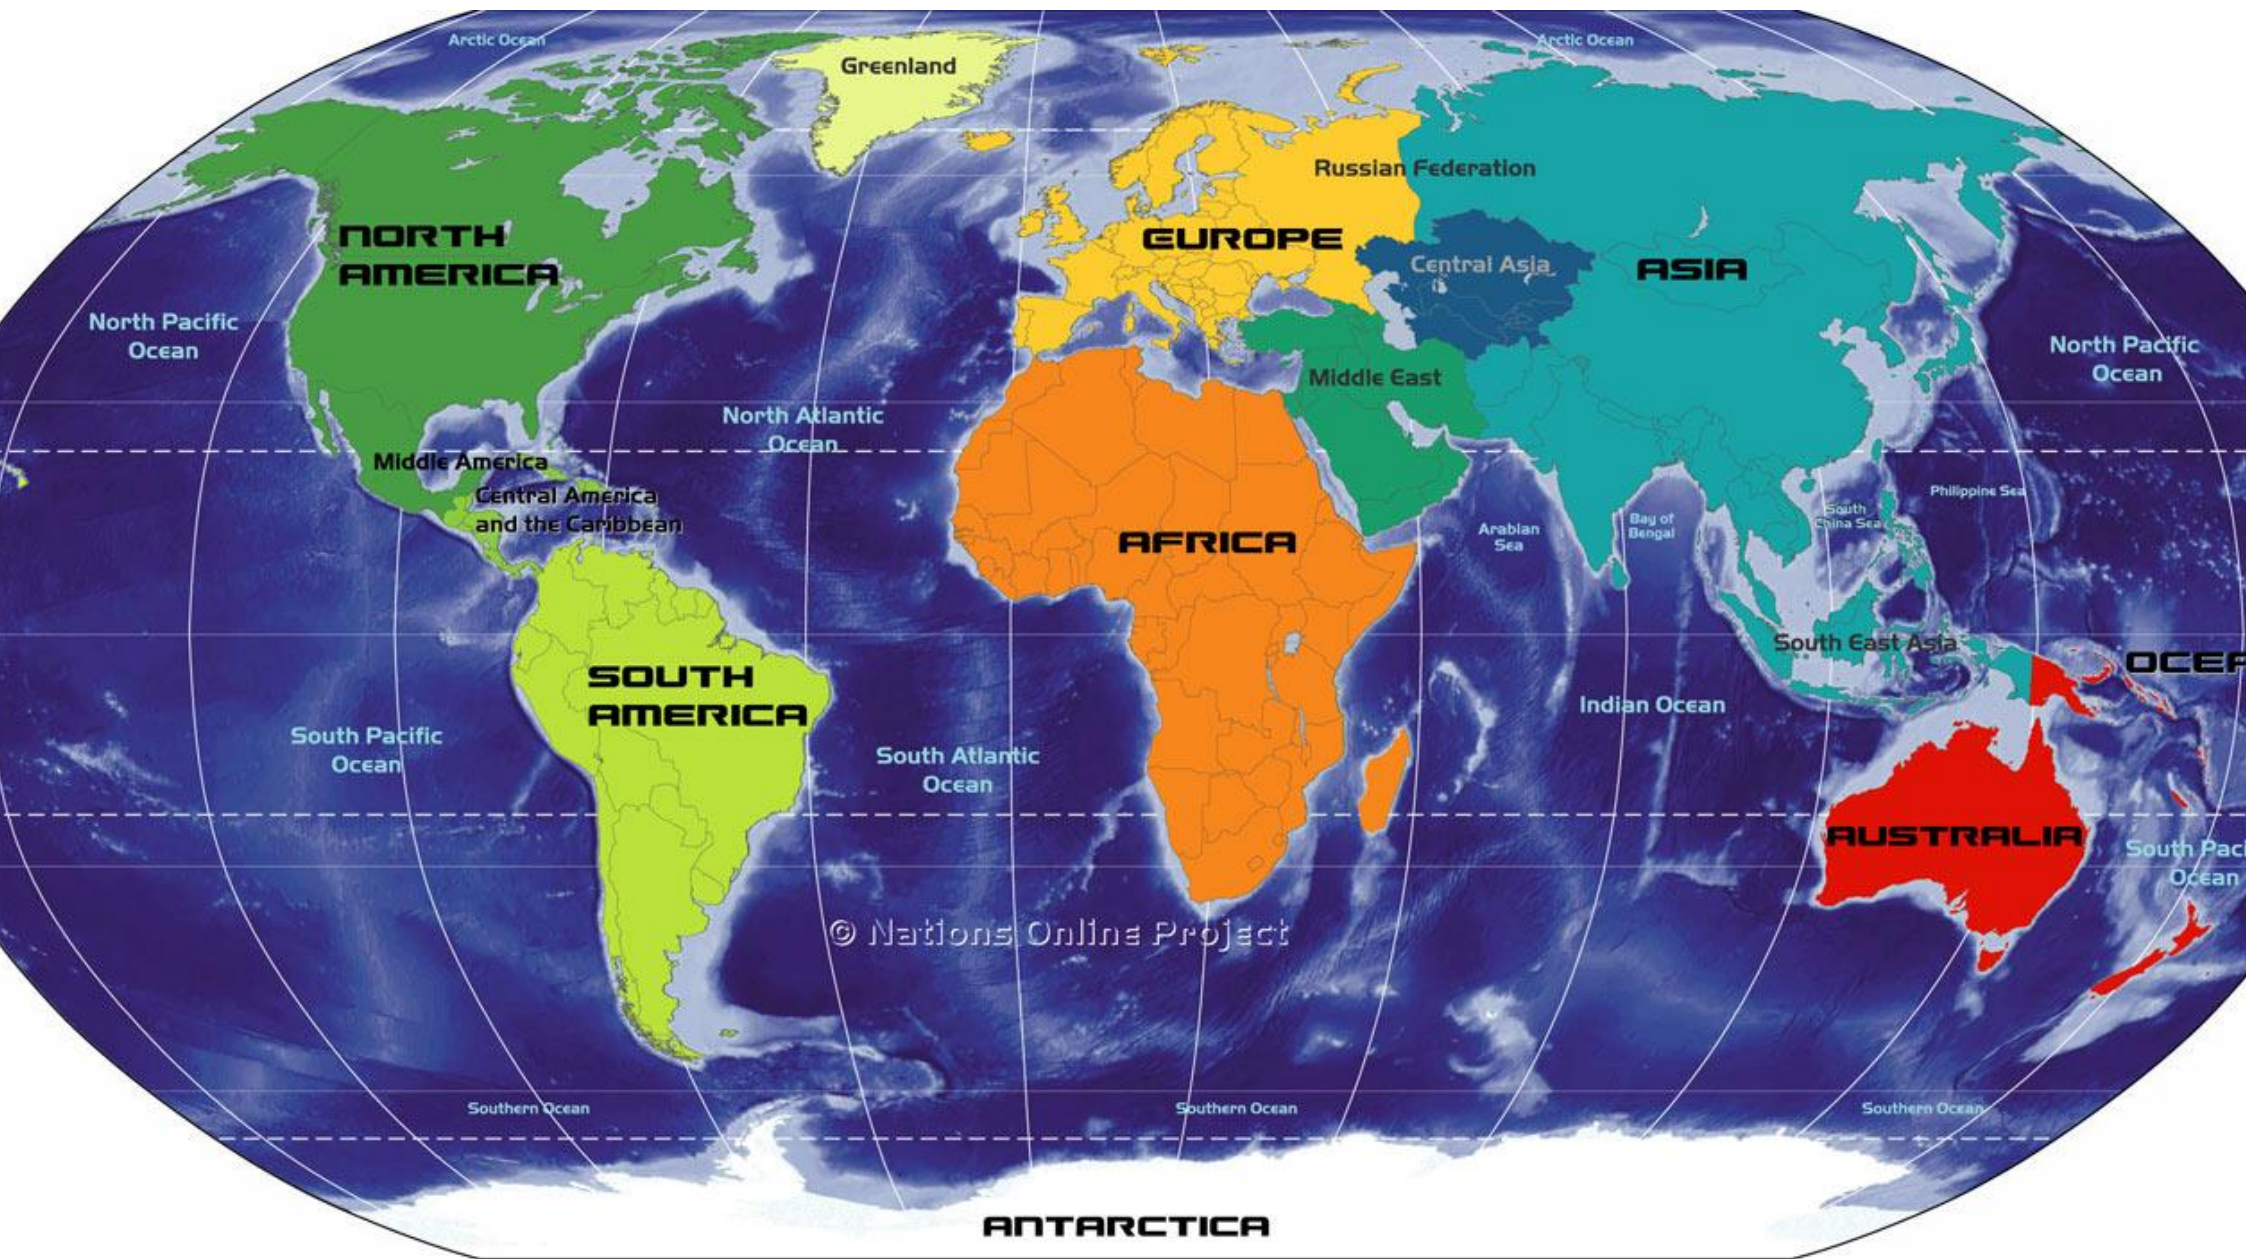

Plant Type	Number of Plants Found	
	Area 1	Area 2
Buttercup	4	6
Daisy	10	2
Clover	8	3
Nettle	0	3
Dock	1	4
Ragwort	1	6
Cardellian	4	0

Seasons Wheel

Make your own Season Wheel by following the instructions:

1. For each season, draw a picture of the weather.
2. If you can, think of an event that happens in each season. It could be a celebration, a holiday or an important occasion, like a birthday. Add it to your wheel.
3. Add small arrows to your wheel to show which way the seasons go.
4. Carefully cut out your wheel.
