

Colours in Nature

Chalk squares of colour outside and find things to add to your squares that match them.

Colour scavenger hunt - Before you go on a walk cut some little squares of colour from magazines and stick them down the side of a piece of paper. Take your glue with you and as you go see if you can find things to stick on your page that match your colours

Learn about Colours

What makes a rainbow? Take a trip to OKIDO and discover what makes a rainbow <https://www.bbc.co.uk/cbeebies/watch/messy-goes-to-okido-what-makes-a-rainbow>

Or learn about how animals use colours to hide <https://www.bbc.co.uk/bitesize/clips/z7x76sg>

Rainbow Art Challenge

Make your own Elmer or Rainbow fish.

Print

Collage

or paint

Learn the rainbow song!

Our Colourful World Challenge Board

Rainbow Poem

RAINBOW POETRY

RED fire truck racing

ORANGE leaves dancing

YELLOW custard eating

GREEN frog jumping

Write a poem about all the colour of the rainbow. Start each line with a colour and think of something that is that colour to complete the line. Use felt tips to make your poem colourful!

Favourite Colour Poster

Make a poster about your favourite colour! Draw, take photos or find things in magazines that are your colour, to stick on. Write your colour name and add some labels or sentences say why you love it so much.

Colourful caterpillar experiment

YOU WILL NEED - 5 Clear Containers, Primary Colour Food Dye (Red, Yellow, Blue) or Washable Watercolors, Paper Towels, Water
Adding in the food dye is a huge part of the fun and learning for this science experiment so let your child help. Fill up all five cups with water. Add in as many drops of red food dye as you want to the first cup, repeat for yellow and blue.

Once all your primary colours (red, blue, yellow) are added, it is time to set up the towels for the colours to crawl across! Place the cups with the clear cups in between each colour. Roll up a paper towel and take an edge to go into each cup (one primary and one empty/clear). Keep adding in paper towels between the cups until you have made a **crawling caterpillar**. Leave the jars to sit and watch the colours crawl...or dig your fingers in and play in the water as the colours transfer!

Rainbow Baking

Make a rainbow cake

Ask a grown up to help you using this recipe

Colour Race

Challenge 1 - Ask a grown up to time you for 1 minute, how many red things can you find and bring back in that time? Repeat for Blue, green, pink, yellow etc. and see if you can beat the amount! Build it into a pictogram. Which colour did you get the most/least of?

Challenge 2 - Can you add the blue and the yellow? The red and the blue? The green and the pink?
